Rules and Regulations:

1. In the midterm exam, the invigilators will provide you with printed questions, which will have the necessary color codes marked. Therefore, no worries about color codes. You must write your code in VS Code and submit it through the LMS. Hence, it is essential to know your LMS password in advance. As a final-year student, forgetting your LMS password will not be considered.
2. There will be 2 questions, each involving a different UI design, and each carrying 15 marks. Marks will be awarded based on how closely your UI resembles the given designs.
3. The exam will start precisely at 9:00 AM. Arrive at the lab by 8:30 AM to ensure your assigned PC is working properly and that the necessary software is installed. If you find

any issues with the assigned computer, inform the invigilator immediately to change your seat/PC. After the exam begins, no complaints will be considered.

4. The exam duration is 1 hour and 30 minutes: 1 hour and 25 minutes for coding, and 5 minutes for submitting the code in LMS. Exam start: 9:00 AM, Exam end: 10:25 AM, Submission end: 10:30 AM. You cannot write code during the last 5 minutes (10:25 AM to 10:30 AM).
5. I will provide all logos/icons/background images (if any) in a zip folder in the LMS at exactly 11:00 PM the night before the midterm exam. Please download the zip folder and bring it with you on a pendrive. You are not allowed to share your pendrive with anyone at any time during the exam period.
6. Please note, you are not allowed to bring any code inside this pendrive except for the zip folder.
7. No code will be provided with the question. However, you are allowed to bring one printed page (double-sided) with any code of your choice, using any font size. Within this double-sided page, you can include as much code as you want.
8. You are not allowed to bring any personal items, such as Codes using the pendrive, personal laptop, mobile, calculator, pen, notebooks, books, etc. In short, do not bring anything with you except the pendrive.
9. During the exam, create two folders: code1 and code2. In the code1 folder, write the code for question 1, and in the code2 folder, write the code for question 2. At 10:25 AM, zip both folders together into a single zip folder and upload this single zip folder to LMS.
10. Using AI tools like ChatGPT in the last 5 minutes during submission will result in expulsion by the invigilator.
11. No submission will be checked if not submitted in the LMS before the deadline (10:30 AM). If you submit the codes after 10:30 AM in the LMS or if you submit them through my email address, I will mark you as 'ab' (absent) in your grade sheet. This is a formal final examination, thus no considerations will be given under any circumstances.
12. The following excuses are very common. Please do not use them:
 - লাস্ট মোমেন্টে কোড ডিলিট হয়ে গেছে
 - কোড খুঁজে পাচ্ছি না কোথায় সেভ করছি
 - কোড লিখেছিলাম এখন খালি দেখাচ্ছে।
 - কম্পিউটার অথবা ইউ-পি-এস রিস্টার্ট নিয়ে নিচ্ছে, তাই সাবমিশন লেট হইছে
 - এল-এম-এস এর পাসওয়ার্ড ভুলে গেছিলাম।
 - ফোল্ডার কিভাবে যিপ করতে হয় তা জানতাম না।
 - এল-এম-এস লোড হচ্ছিলো না।
 - নতুন ELMS এর পাসওয়ার্ড ভুলে গেছি।
13. Any kind of unfair means, such as sharing pendrives, sharing codes using Gmail/LMS, using laptops, using smartphones, or using the internet in any way at any time during the exam, will result in expulsion by the invigilator. Any copied code will receive 0 out of 30 marks for both involved students.
14. You must return the question paper after the exam at 10:30 AM.
15. You cannot go to the washroom during the exam period from 9:00 AM to 10:30 AM. Therefore, please go to the washroom before the exam starts (before 9:00 AM).

16. Practice makes everyone perfect. Do practice a lot to reduce completion time. Also, try to increase typing speed not only for Web Programming, but also for future career.
17. Good luck for the exam.
